I look forward to hearing how establishments will use the survey results to better meet the needs of customers." Over 300 people participated in this year's survey.

The results of the survey are compiled and published in the final report that can be found on the company's website. The final survey report provides significant insight into the community's collective opinion on Chicago area kosher establishments. The report is a unique resource for consumers to use in deciding which businesses to patronize. In addition, the results of the survey can provide restaurants, bakeries and stores with guidance on how to better serve their customers.
